

# Make the right decision

## Study with Travel Training Australia

What qualities are you looking for in a training college? Travel Training Australia is very different from other training colleges and here's why.

**Big enough to provide you with the best travel training, small enough to care.**

Travel Training Australia is different and we guarantee you won't get 'lost' as you do in a big organisation. We are a small 'boutique' online training organization and we can help you gain the skills you need to be job ready for the travel industry. Kevin and Leanne will take you from **enrolment to graduation** and be there for you every step of the way. You will receive more one-on-one tuition than you would in a classroom and benefit from friendly, personalised service. After you finish the course the relationship continues if you want to start your own agency with our host agency partner, **Your Travel Centre**.

### **Flexibility**

We have complete control of our business and can cut through 'red-tape' to make instant decisions that positively impact on your study. No issue is too great or small – a solution will be found quickly and efficiently.

### **Friendly Travel Experts ready to share a wealth of experience**

We are experts in travel and we are the only training college to also operate our own travel agency. TTA Travel is a subsidiary company and as part of the travel industry we can share our insider experience and knowledge with you.

### **Highly qualified course writers, developers and trainers**

We don't buy the course material from a central distribution source like other colleges. We write all the course material and structure the course internally – and keep it up to date with any changes as they occur in the industry. We make sure you are studying units in a logical order that reflects the job role from A-Z. We will also be your facilitators as you progress through the course so you will benefit from our in-depth knowledge of the course content.

## Student support – exceeds expectations

We are passionate about providing each student with support that is over and above your expectations. Fast marking of assessments with quick feedback to know you are on the right track, email enquiries replied to promptly – We are definitely not a 9 to 5 college! Need additional support? – No worries! You will be delighted with the service you receive. Check out our website to see comments from our past student testimonials who have experienced our service!

## AFTA Accredited

Travel Training Australia is an **AFTA Accredited Training Provider**. There is a stringent application process to gain AFTA Accreditation and this means you can be assured of quality training from us as we are currently accredited by the Australian Federation of Travel Agents and endorsed by the Travel Industry.

## Online Training

Cloud Assess is a Learning Management System. It's smart and user friendly with the convenience of being able to access the course on your smart phone, tablet, PC or desktop. A simple but highly effective program, that you will navigate in no time and enjoy using. We include Learner Guides with course notes for you to follow with online tutorials and videos to help you understand the content.

## Assessments

There is nothing worse than doing assessments that are theory-based, with essays or reports that have no practical focus and no indication of where it all fits into the job role. You won't find this with Travel Training Australia. All our courses are practical with lots of focus on the clients you will serve in the travel industry, and how you will provide them with information on destinations, prepare their quotes, use an airline reservation system (Amadeus) to work out the best value flights and fares. You even get to use a real travel industry CRM (Client Relationship Management) system from a travel agency to make client files and administer their payments.

## Advanced Travel Training

At the end of the course we have included an additional non-compulsory, non-assessable unit called '**Advanced Travel Training**'. This gives you extra practice using Amadeus and your newly acquired knowledge, with real-world client requests that to give you a good insight into the job role of a travel agent. It combines all you have learned during the course. This unit is included **Free of Charge** and is available on completion of the Certificate III in Travel and is exclusive to Travel Training Australia.

## **IATA International Airfares**

Kevin is our very own airfares 'guru' and currently runs an airfares help-desk for a travel industry client as well as booking airfares for TTA Travel clients. He has an extensive background in Fares and Ticketing and has amazing knowledge and expertise in this area. Kevin will guide you through Amadeus CRS accredited training and International Airfare construction. You will greatly benefit from his expertise and the personal attention he gives you, as his student. *International airfares training is highly sought after in industry and to be trained by the best will make you ahead of the rest!*

## **Your Travel Centre – Start your own travel business!**

Many of our graduates are now operating their own travel business. Studying with Travel Training Australia is the first step in the right direction if you are interested in starting your own travel business. We partner with a host agency, Your Travel Centre and after you have completed the Certificate III in Travel, you can apply to join and set up your own travel business. You will receive valuable ongoing support, the reservation and administration systems you need to operate as well as lots of training and networking opportunities. This unique program is only available through Travel Training Australia. For more details please visit the following site:

## **AFTA National Travel Industry Awards**

Travel Training Australia was one of the top 5 finalists in the AFTA National Travel Industry Awards 2016 and to reach this stage of the event we had to demonstrate excellence in all areas of training and delivery as well as outstanding quality and customer focus.

We hope this information is helpful and we are happy to answer any questions you may have.
